Projects

Agentic Research & Analysis Pipeline

[Code](#)

[n8n](#) · [Research](#) / [Logical](#) / [Explainer Agents](#) · [Google Sheets](#) · [Chat UI](#)

- Routes queries across 3 specialized agents via intent classification; retrieves company financial docs to eliminate hallucinations.
- Evaluation scores, performance metrics, and errors auto-logged to Google Sheets for live monitoring.

Expense Tracker MCP Server

[Code](#)

[FastMCP](#) · [SQLite \(async\)](#) · [Claude MCP Connector](#) · [FastMCP Cloud](#)

- Async MCP server with 6+ typed tools (add, query, summarise, budget alerts) exposed directly to Claude.
- Handles concurrent multi-user sessions via async SQLite; deployed on FastMCP cloud with zero local setup.
- Connect instantly by adding the hosted URL to any Claude MCP client – no installation required.

CareerForge AI — Full-Stack Career Intelligence Platform

[Code](#) · [Live Demo](#)

[LangChain](#) · [FastAPI](#) · [Streamlit](#) · [SQLite](#) · [Gemini API](#)

- ATS scanner evaluating resumes against 100+ keywords, returns score, salary estimate, gaps, and tips.
- Dual-mode resume builder (Modern + Classic) generating a download-ready PDF in under 20 seconds.
- Context-aware chatbot for resume Q&A with persistent multi-user session storage.

Persistent Chat Assistant with Live Tools & Memory

[Code](#) · [Live Demo](#)

[LangGraph](#) · [SQLite \(async\)](#) · [Gemini API](#) · [Streamlit](#) · [LangSmith](#)

- Live tool use: real-time stock prices, weather, and context-aware memory across sessions.
- Auto-generates chat titles; full history persisted in async SQLite survives restarts and reloads.
